DONOHOE CONSTRUCTION WINS BIG AT SUBBY AWARDS

Washington, DC, March 1, 2016 — Donohoe Construction Company had a big night at the American Subcontractors Association of Metro Washington's Subby Awards Gala that was held on Saturday, February 27. Donohoe Construction won "General Contractor of the Year for Base Building" and 9-year Donohoe employee, Kevin Pugh, received the honor of "Project Manager of the Year."

Pugh was recognized as the project manager who has proven superior in managing projects effectively through expeditiously processing change orders, paying in a timely manner, and showing overall fair treatment of subcontractors. Pugh is currently managing a \$25 million project that consists of converting a 4-story historical hospital into a luxury apartment building on Capitol Hill.

Donohoe Senior Vice President of Operations, Robert Wilson, accepted the "General Contractor of the Year" award on behalf of Donohoe Construction's Base Building division. This award is presented to the general contractor that has demonstrated a commitment to fairness in construction through outstanding project administration, efficient field supervision, and fair financial practices.

The American Subcontractors Association of Metro Washington hosts nearly 50 general contractors at the gala each year with winners in 15 categories.
