HOMEWOOD SUITES ARLINGTON TOPS OUT

Arlington, VA – Donohoe Construction Company hosted a “Topping Out” celebration for the new Homewood Suites by Hilton project located on 1700 Lee Highway in Arlington, VA earlier today. This event marks the building reaching its highest constructed point.

Developed by B.F. Saul Company, this all-suite, 11-story hotel will offer 168 keys featuring fully-equipped kitchens and separate living and sleeping areas that will accommodate both business travelers and tourists for extended stays. Amenities include a fitness facility, a 1,000 SF meeting room, a dining area and lobby bar, and two patios with fireplaces and outdoor grills. Two levels of above-grade parking with approximately 100 spaces will also be available to guests. Gordon & Greenberg Architects designed the hotel to achieve LEED Gold.

The project broke ground June 2016 and is expected to reach substantial completion early next year.
