

# ABC Keystone's Jobsite Start-Up Kit

Keystone Chapter

Each kit contains more than 15 specific safety items, including:

- All notices that the Federal Government and the Commonwealth of PA require to be posted
- "What to do during an OSHA inspection"
- Hazardous materials classifications
- Emergency procedures
- OSHA Construction Industry Digest
- Job safety check list and requirements
- Copy of a 300 Log

## Meet Federal and State Requirements by Ordering a Jobsite Start-Up Kit

"Simeral Construction Company is continually working towards increasing our commitment to safety. One tool that has helped our efforts is the Associated Builders & Contractors (ABC) Jobsite Start Up Kit. This has become a valuable tool in our efforts to educate our workforces while providing overall workplace improvements to safety. Our associates, insurance carrier and customers appreciate our efforts to maintain a safe work environment. We would recommend to all contractor members to utilize the tools being offered by ABC for their safety programs."

*—Mark Simeral, President of Simeral Construction Co., Lititz*

**The price of a kit is \$34.50, including tax and shipping.**
