Washington Area Contractors Recognized for Project Excellence

Tysons Corner, Va. – The [Metro Washington](#) and [Virginia](#) Chapters of Associated Builders and Contractors (ABC) honored the winners of the 35th annual Excellence in Construction® Awards, September 14 at the Ritz Carlton in Tysons Corner, Va. The Excellence in Construction Awards recognizes and celebrates outstanding projects built by Washington-area ABC members. The awards competition serves to raise the level of construction standards throughout the industry by recognizing the workmanship of those who contribute and by showcasing the results of their dedication.

ABC contractors entered more than 140 projects in categories including commercial, commercial/residential renovation, drywall, educational, electrical, excavation/site preparation, heavy/industrial/transportation, historic restoration, industrial, institutional, interiors, landscaping, masonry, mechanical, medical renovation, mega project, mixed use, residential, restaurant interior build-out, retail and specialty.

- more -

"This year's winning projects adhere to the high level of teamwork, craftsmanship, and commitment to safety that the ABC members commit to in the Metro Washington region," said Patrick J. Dean, president, ABC Virginia Chapter.

A large panel of industry experts served as the competition's judges. This year's panel included industry professionals from a cross-section of the building industry, including architects, owners, government officials, and other industry leaders around the Washington Metro-area.

"To select the award winners, more than 100 judges reviewed the entry submittals and visited each project site," said Debbie Livingston, president, ABC of Metro Washington. "Projects were judged on workmanship, safety, innovation, complexity, unique challenges overcome, completion time, cost and attractiveness."

The evening also honored members of the construction team with the presentation of 15 Subcontractor of the Year Awards. More than 100 ABC general contractors voted to select the subcontractor winners.

Subcontractor of the Year Awards were presented in the following categories: concrete; doors and windows; drywall and ceiling; electrical; finish carpentry and architectural millwork; fire protection; furnishings; landscaping; masonry; mechanical; metals; paintings and wall coverings; plumbing; sitework; stone, tile, flooring and carpet; and thermal and moisture protection.

Photographs from the awards ceremony are available. Please contact Cathy Calliotte, director of marketing and business development, Associated Builders and Contractors, Inc. - Metro Washington Chapter at 301-595-9711 or ccalliotte@abcmetrowashington.org.

###

About Associated Builders and Contractors: The Metro Washington and Virginia Chapters of ABC represent the interests of nearly 1,000 contractors, specialty contractors, and suppliers throughout Virginia, Maryland, and the District of Columbia that support and believe in the principles of merit shop construction and open competition. Merit Shop is a way of doing business in which companies reward employees based on performance and encourage them to reach their highest level of achievement, and in which contracts are awarded based on safety, quality, and value, regardless of labor affiliation. An open marketplace creates efficient, cost-competitive projects, safe work sites, comparable wages and workforce training.
